

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (previously presented): A method for conditioning hair comprising applying to the hair a hair oil consisting essentially of:

- (i) from 60% to 80%, by weight based on total weight, of a first oily component selected from the group consisting of coconut oil, sunflower oil, almond oil and mixtures thereof; and
- (ii) from 20% to 40%, by weight based on total weight, of a second oily component which is light mineral oil having a viscosity at 25 to 30°C of from 0.0001 to 0.5 Pa.s.

Claims 2-6 (canceled)

Claim 7 (currently amended): A method according to claim 1, ~~which is in an anhydrous form~~ wherein the hair oil is in an anhydrous form.

Claims 8-9 (canceled)

Claims 10-12 (canceled)

Claim 13 (currently amended): A method for conditioning hair comprising applying to the hair a hair oil consisting essentially of :

- (i) from 60% to 80%, by weight based on total weight, of a first oily component which is one or more glyceride fatty esters, and
- (ii) from 20% to 40%, by weight based on total weight, of a second oily component which is one or more hydrocarbon oils each with a viscosity at 25 to 30°C of from 0.0001 to 0.5 Pa.s and being selected from the group consisting of a light mineral oil, straight chain hydrocarbon oils containing from 6 to 16 carbon atoms, branched chain hydrocarbon oils containing from 6 to 20 carbon atoms and blends thereof,

with the proviso that, if glycerine is present in the hair oil, it is present at a level of up to about 5% by weight of the hair oil.

Claim 7 has been amended to improve the readability of the claim by specifying that the hair oil is in an anhydrous form. Support for this amendment is provided in the specification at page 6, lines 30 to 31.

Claim 13 has been amended to stipulate that, if glycerine is present in the hair oil, it is present at a level of up to about 5% by weight. Support for this amendment is provided in the specification at page 7, lines 3 to 14.
